PART I

JUDICIAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Judicial),—dated 22nd March 1893.

READ THE FOLLOWING :—

(1.) Letter No. 142—119, dated 13th June 1887, from the Inspector General of Registration to the Chief Secretary to the Dewan of Mysore.

I have the honor to bring to notice that a document executed by the Priest of the Raghavendraswami Matt was presented for registration at the Nanjangud Sub-Registry Office. As the document related to unenfranchised Inam lands, the Sub-Registrar refused its registration in accordance with the orders contained in this Office Circular No. 2, dated 5th May 1885, (copy enclosed). From this order an appeal was made to the Registrar of Mysore, who confirmed the Sub-Registrar's order. But the holder of the document filed a suit in the District Judge's Court of Mysore for a decree directing the registration of the document in question as laid down in Section 77 of the Registration Act. In this suit the Registrar and Sub-Registrar having been made defendants, the District Judge issued summonses for the attendance of these Officers. The case was referred to me, and I directed the Registrar to attend the Court and explain matters. It appears that the District Judge has finally directed the document to be registered. This order seems not to be in accordance with the Circulars. But this is not the point I wish to invite particular attention to. It is that, if in a suit against the order of refusal passed by the Registering officers under the provisions of the Registration Act and the rules and Circulars, the Civil Courts should allow these officers to be made parties to the suit and require their attendance, this would not only create a great deal of inconvenience to them but also lead possibly to undesirable and clumsy complications in the matter of costs. I therefore request that you will place the matter before the Dewan in order that an authoritative ruling may be passed in consultation with the Chief Court on the subject. And in doing so, I venture to submit that there seems no better reason to exist for making the Registering Officers defendants in such suits than for making the Judges passing Judicial orders, defendants in suits brought to set aside the orders in question.

(2.) Docket No. 1510—134, dated 23rd June 1887, from the Chief Secretary to the Dewan ; to the Inspector General of Registration in Mysore.

His letter No. 142—119, dated 13th instant, requesting that, in consultation with the Chief Court, an authoritative ruling may be made prohibiting Registering Officers being made parties in suits instituted under Section 77 of the Registration Act.

The Dewan considers that this is not a matter which he would like to settle by correspondence with the Chief Court. The *non-liability* of the District Registrar to be made a party should have been made a ground of defence. The Inspector General is requested to submit a copy of the Judgment of the District Court for the information of the Dewan.

(3.) Judgment in Original Suit No. 2 of 1887 on the file of the District Judge, Mysore.

IN THE COURT OF THE DISTRICT JUDGE, MYSORE.

ORIGINAL SUIT NO. 2 OF 1887.

Mysore, dated 5th April 1887.

Present.—S. HAMAJEE RAO, Esq., *District Judge.*

Plaintiff.	*Vs.*	*Defendants.*
Dasasetti.		1. Srimat Supragnanendra Tirtha Sripadangalu, Head of Sriraghavendraswami Matt. 2. The Registrar of the Mysore District. 3. The Sub-Registrar of the Nanjangud Taluk.

Judgment.

This suit is brought for a decree directing the registration of a deed of hypothecation, dated 10th April 1886, executed by 1st Defendant to Plaintiff for Rs. 33,000.

2. The Plaint is as follows :—

(1) The 1st Defendant executed the hypothecation bond filed with the plaint for Rs. 33,000 on 10th April 1886, and he is bound to complete the contract by obtaining the registration of the same.

(2) The document was duly presented for registration in the Office of the Sub-Registrar of Nanjangud who refused to register the same on the ground that the Inam village hypothecated has not been enfranchised.

(3) In an appeal against the order of the Sub-Registrar, the 2nd Defendant, the Registrar has also refused registration of the document.

(4) The Inam is not one which is ever enfranchisable.

(5) The cause of action arose within the jurisdiction of this Court on 9th November 1886.

(6) The Plaintiff prays under Section 77 of the Registration Act in force for a decree directing the registration of the document together with costs.

3. The Defendant pleaded as follows :—

1st Defendant.—The 1st Defendant informed the Plaintiff at the time the document was about to be written the difficulties about registering the document and he is willing to register the document.

2nd and 3rd Defendants.—The 2nd and 3rd Defendants are not liable to the Plaintiff's suit under Section 86 of the Registration Act, inasmuch as they have acted under the authority of the Rules in force.

4. The suit came on for settlement of issues on 29th March 1887.

The Plaintiff was represented by Mr. Lakshminarasimmaiengar, Advocate.

The 1st Defendant was represented by Mr. Guru Rao, 1st Grade Pleader.

The 2nd and 3rd Defendants appeared in person.

The following issue was settled :—

Whether the Registering officer can be directed to register the plaint bond ?

5. The suit came on for final hearing on 4th April 1887.

The Plaintiff appeared as before.

The 3rd Defendant appeared in person.

The 1st and 2nd Defendants were absent.

No witnesses were examined on either side.

The Plaintiff filed the following exhibits :—

a. Deed of hypothecation, dated 10th April 1886, executed by 1st Defendant to Plaintiff for Rs. 33,000.

b. Inam certificate.

6. The only issue for decision in this case is whether the Registering Officer can be compelled to register the plaint bond.

7. The Registering Officer has relied on the Circular No. 22—17, dated the 5th February 1870 issued by the Registrar General, which enjoined invariably the non-admission for registration of documents in support of the alienation of unenfranchised Inams. It was based on the Inam Commissioner's Circular published at page 264 of the Mysore Gazette, dated 22nd January 1870. Neither the Inam Commissioner nor the Registrar General had any authority to issue such a Circular.

8. The main question for consideration is whether the above Circular has the force of law. It has been held in several cases before the Rendition, that no rule or order can be considered as having the force of law in this Province unless it was sanctioned by the Governor-General in Council, which was done in his administrative executive capacity. It has not been shown that it obtained the sanction of the Governor-General, nor am I aware that the said Circular has the force of law. I consider that the rights of Government under the escheat rules and its powers of resumption in other cases could not be affected by the mere registering of a document relating to unenfranchised Inams. I fail to see any legally valid objections on public grounds to refuse the registration of the document.

9. The Advocate for the Plaintiff argued that the Inam in question was a religious endowment and the Circular prohibiting the registration did not apply to his case. The point does not arise in this case and I decline to give any opinion on it.

10. A decree will therefore be passed directing the Sub-Registrar of Nanjangud to register the document under the rules in force. I shall allow no costs in this case.

(4.) Letters Nos. 310 and 358—13, dated 14th November 1890 and 16th December 1890, respectively, from the Inspector General of Registration in Mysore, to the Chief Secretary to the Dewan of Mysore.

(*a*) I have the honor to submit for the Dewan's instructions the enclosed letter No. 58—12, dated 6th November, from the District Registrar of Mysore.

2. The Circulars issued from this Office prohibiting the registration of documents evidencing the alienation are noted in the margin and for facility of reference, I forward a printed copy of the Registration Circulars and Standing Orders with the page of the book marked against each of the marginally noted Circulars.

Page 1, No. 1—15, dated 9th February 1866.
Do 18, No. 21—77, dated 5th February 1870.
Do 21, No. 25— 4, dated 29th June 1870.
Do 88, No. 2 of 1885-86, dated 5th May 1885.
Do 86, No. 8 of 1886-87, dated 4th September 1886.

3. I beg to forward also for facility of reference the 6th Volume of the Mysore Gazette and to invite the Dewan's attention to the Notification of the Inam Commissioner published in page 36, also a copy of a Judgment of the Chief Court and of the District Judge of Mysore sent to me with the District Registrar's reference.

4. I agree with the District Registrar in considering that the Circulars issued from my office imposing the prohibition should be withdrawn or otherwise cancelled.

5. Beyond aiming to prove the fact of execution, the Registration of a document confers no rights which the document itself cannot convey, and does not and cannot bar the right of the Government to reversion if such a right should exist.

6. In withdrawing the prohibition, the Registration Officers may be directed to forward to the Deputy Commissioner of the District, copies of such of the documents presented to them as are opposed to the letter and spirit of the Circular orders referred to, so that the Deputy Commissioner may have a record of all these unauthorized alienations.

7. I beg that the enclosures of this letter may be kindly sent back to me when no longer necessary.

(*b*). In reply to your docket No. 9256—1172, dated 17th November 1890, I have the honor to submit for the approval of the Government a Circular proposed to be issued on the subject of registration of documents alienating Inam lands.

No. 16491—J. 917, dated, Bangalore, 22nd March 1893.

Order thereon.—The Circular alluded to in the Judgment of the District Judge, Mysore, as well as another similar to it (Circular No. 2 of 1885-86, dated 5th March 1885), issued by the Inspector General of Registration directing the Registering Officers to refuse registration of documents relating to alienation of unenfranchised Inams, have evidently been based on para 4 of the Notifications of the Inam Commissioner, dated 23rd December 1868 and 6th January 1870, published, respectively, at page 36 of the Mysore Gazette, No. 3, dated 16th January 1869, and at pages 264 and 265 of the Mysore Gazette, No. 16, dated 22nd January 1870. On careful consideration of the matter, the Government are satisfied that neither the Notifications of the Inam Commissioner nor the Circulars of the Inspector General of Registration based thereon, could have the force of law, so as to make it obligatory on Courts to recognize them as such and give effect to them.

2. Section 67 of the Registration Act empowers the Inspector General of Registration to frame rules consistent with the Act, after such rules have been submitted to and approved by Government, but in the present case, it is not possible to say that the Circulars in question were consistent with the Act, as the Act no-

where lays down that documents of the kind referred to shall not be registered; on the other hand, the principle of the Act seems to be to enforce registration in as many cases as possible, compulsory in some, and optional in others.

3. Registration gives no title to the party, which by law, he does not possess and the registration of a deed relating to alienation of an unenfranchised service or temple Inam cannot affect the Inam tenure or the right of the Government to resume it, if necessary. Under these circumstances, the Government approve of the Circular proposed to be issued by the Inspector General withdrawing the prohibition against registration of documents affecting the alienation of unenfranchised Inams by way of sale, mortgage or otherwise, and direct that the Circulars of the Inspector General of Registration noted in the margin be withdrawn as they are of no legal force whatever.

Letter No. 394, dated 10th September 1892, from the Deputy Commissioner and District Magistrate, Hassan, to the Chief Secretary to the Dewan of Mysore.

I have the honor to report the following facts for the orders of Government.

2. One Siddalinga of Kadari Madari village, in the Kadur District was found travelling with a gun without a license by the Police of the Manjarabad Taluk who seized the same and kept it in custody. But the said Siddalinga soon afterwards brought and produced a license obtained by him for the same. This license was granted by the District Magistrate of Kadur for the year 1891 on 31st April 1891 and it is also countersigned by the Under-Secretary to have effect throughout the Province. This license is again endorsed on the reverse by the same Magistrate as renewed for the year 1892. But as this endorsement had not been countersigned by you, the omission was brought to the notice of the District Magistrate of Kadur who returned the papers stating that there was no express provision in the Rules framed under the Arms Act that renewals of licenses should also be countersigned by you to have effect throughout the Province.

3. I beg to submit that from Rule 16 framed under the Act and condition 3 of the license it is clear that, that licenses of the kind will not be valid after the expiry of the period for which they are issued. When once the license shall cease to have effect, the procedure laid down in Rule 16 of the Act should I think be necessarily followed, as otherwise the same cannot be considered to have any effect except in the District in which it is renewed. I beg also to refer you to condition IV of the license which purports to the effect that unless a license is countersigned by a Provincial authority it shall not have effect throughout the Province.

4. The vernacular papers ending with Kadur District Magistrate's Yadi No. 1048, dated 15th June last are submitted for reference.

Official Memorandum No. 162, dated 18th October 1892, from the Government Advocate in Mysore.

I am of opinion that the views expressed by the Deputy Commissioner in para 3 of his letter are correct. I have nothing to add to them.

No. 16288-95—J. 904, DATED, BANGALORE, 22ND MARCH 1893.

ORDER THEREON.—Government accept the Government Advocate's opinion which with the letter of the Deputy Commissioner of Hassan will be communicated for the information and guidance of other Deputy Commissioners.

T. ANANDA ROW,
Chief Secretary.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Judicial),—dated 22nd March 1893.

READ:—

Docket No. 5741, dated 27th December 1892, from the Chief Engineer of Mysore, submitting a statement showing the number of cases in which men with local interest had been given or refused contracts during the half-year ending with 30th September 1892.

No. 16156-64—J. F. 177-92, DATED, BANGALORE, 22ND MARCH 1893.

ORDER THEREON.—It is observed that out of 20 contracts of irrigation works shown in the statement, 19 were given to local men interested in their stability and security. Of these, no less than 18 belonged to the Bangalore and the remaining one to the Kadur District, no contracts having been given out in the other Districts. It is remarkable that while Bangalore was able to find local contractors interested in works in 18 out of 19 cases, other Districts except Kadur should have found none at all, and it can hardly be that in these Districts there is an absolute dearth of proper men. The Chief Engineer will, therefore, be requested to invite the special attention of his subordinates again to the order of the Government (Proceedings No. 4691-9—92, dated 18th July 1891) with a view to earnest endeavours being made to give effect to the policy which Government have so much at heart.

2. The statement submitted gives no information as to the results of the contracts, shown as given to local men in the Districts of Bangalore and Kadur, and the Government will be glad to know whether in each case the experiment has proved a success.

T. ANANDA ROW,
Chief Secretary.

To—The Chief Engineer in Mysore.
Copy to Deputy Commissioners of Districts for information.

READ —

The following letter No. 2026—476 dated 5th January 1893, from the Deputy Commissioner, Kolar District

With reference to Government Proceedings No. D 428 of the 7th May 1892, authorizing the remission of local cess on the half of the assessment remitted on account of Rice lands which owing to absence or failure of water in tanks, lay waste or yielded no crop during 1891-92, I have the honor to state that the cess having mostly been recovered with the 1st khist of the year as usual, it has become necessary to refund trifling sums in numerous individual cases

2 As such a course will obviously be inconvenient and lead to abuse on the part of petty officials, I beg to recommend that the requisite refunds may be permitted to be made by deduction from the current year's demand against the ryots concerned as has been ordered in Government Proceedings No. D. 645, dated 4th November 1892, in the case of remissions of Halbanni rent for 1891 92.

The Deputy Commissioners of Districts.

READ THE FOLLOWING PAPERS :—

Letter No. 678, dated the 29th November 1892, from the Superintendent, Mysore Revenue Survey, submitting for orders letter No. 861 of the 15th idem from the Deputy Commissioner, Hassan District, seeking instructions in regard to the kind of Boundary Marks to be fixed for the sub-divisions of survey fields carried out under the provisions of Rule XXVII of the Mysore Land Revenue Rules, and stating that in his opinion these sub-divisions should not be demarcated as they would cause confusion in the regular survey demarcation and thus impair the value of the annual boundary mark inspections.

(ii) Government Proceedings No. 11736—R. 1382-92, dated 2nd January 1893, enquiring what difficulty there is in properly demarcating the sub-divided portions as the rules on the subject are explicit enough and requesting Colonel Grant for a further report

(iii) Read also the following letter No. 884, dated the 5th February 1893, from the Survey Superintendent in Mysore, to the Chief Secretary to the Dewan of Mysore.

I have the honor to acknowledge receipt of your docket No. 13428—R. 1613-92 of the 1st instant drawing my attention, and requesting an early reply, to Government Proceedings No. 11736—R. 1382-92, dated 2nd January 1893.

2. I purposely delayed my reply, thinking that as there were other points connected with the sub-division of Survey numbers, permitted under Mysore Land Revenue Rule XXVII, on which I desired to refer, I would submit a more comprehensive report later on, including, of course, the present question which relates to the propriety or otherwise of demarcating sub-divisions, under the minima, made under Rule XXVII. I will now, however, reply, as suggested, on the particular point in question.

3. You will observe that in my letter No. 678 of the 29th November 1892, I contended that the interior sub-division, *i. e.*, the sub-division under Rule XXVII, should not be demarcated by Boundary Marks of the same character as used for Survey numbers measured, demarcated and *mapped* by the Revenue Survey. The sub-divisions under Rule XXVII are not mapped and in this vital and all important respect, differ from original Survey Numbers, notwithstanding that at Clause 8 of the same Rule it is laid down that "after sub-division the sub-divided portion should "be treated in all respects as a separate field." Unless the sub-divided portion be mapped, its demarcation will only cause confusion. Any one acquainted with the difficulty of finding and identifying the regular Survey Boundary Marks by the aid of the map during field inspection will readily admit the disadvantage of having a number of Boundary Marks of the same pattern as those he is looking for, standing about, but not shown on the map. The sub-division boundary marks will as a matter of course be mistaken for, or even palmed off, as the original Survey boundary marks.

4. The Survey demarcation, I greatly regret to say, is deteriorating year by year. The sub-division survey of three Taluks, Davangere, Holalkere and Sorab, brought to light most painful instances of neglect, while the errors found in the sub-division made by petty Revenue officers, on re-measurement by the Survey were of a most serious nature. It cannot therefore be a matter for surprize if I view with anxiety the erection of still more Boundary Marks of the same pattern as those used by the regular survey especially where I know from experience that their presence will hamper and impair the field inspection of the mapped Survey numbers and that the sub-divisions they demarcate, are, so far as accuracy is concerned, in many cases valueless.

5. In your docket under reply I am asked what difficulty there is in properly demarcating the sub-divided portion of a Survey number, as directed in Clause 4, Rule XXVII. The difficulty was not the point I raised, but I am certain that if demarcation is not systematically carried out, the marks, after erection, passed by a responsible officer, and a still further test taken by a superior officer, it will be practically worthless. How far the demarcation already carried out under Rule XXVII has been inspected, passed and again tested, Government can ascertain from the various Deputy Commissioners. My impression is that no system of inspection and test of these Sub-division Boundary Marks is followed

6. There is no disguising the fact that regular Survey demarcation is in danger of disappearing in many cases, if prompt measures be not taken to enforce the annual inspections and repairs. These Boundary Marks were all passed and tested, in the Survey Department, in the first instance. In many cases I have seen Boundary Marks which had never been repaired for years and yet were in good order, but in other cases the material of which they are composed not being so lasting, they disappear, and in other cases a heavy rain-fall necessitates periodical repair. But whether the original demarcation be good or bad the annual inspections and repairs are in many instances never carried out. When it is considered how much depends upon the demarcation, as per map being kept up to standard and how very easy it is, with a little system, to so maintain it, I would earnestly press the matter upon the attention of Government.

7. As regards the particular point now under discussion I am convinced that, in view of whatever decision Government may hereafter arrive at, whether to have a re-survey, or sub-division survey or to adopt more stringent measures for maintaining intact the survey boundaries, upon which so much depends, it is better that no demarcation and certainly not demarcation, precisely similar to that used by the Survey, should be attempted for sub-divided portions of a Survey number not shown on the map.

No. 14996-5004—R.1831, DATED, BANGALORE, 8TH MARCH 1893.

ORDER THEREON.—Before passing final orders on the subject under notice, Deputy Commissioners will be requested to report how the sub-divisions of Survey fields already carried out in their Districts under Rule XXVII of the Rules under the Land Revenue Code have been demarcated; whether such demarcations have been tested by the Taluk and District Officers, and what arrangements they would propose for demarcating the sub-divisions in future.

2. The facts brought to notice in para 6 of the Survey Superintendent's letter read above call for the immediate attention of the Deputy Commissioners who are requested to submit a special report at the end of the current official year, on the state of the Boundary Marks in each Taluk and of the steps which they will have taken to get them put into a satisfactory condition during the next rainy season.

No. 15490-98—R. 1892, DATED, BANGALORE, 19TH MARCH 1893.

ORDER THEREON.—From the figures in the subjoined statement, it is observed that in the Districts of Mysore, Hassan and Kadur, the figures as per Demand, Collection and Balance statements submitted to this Office, do not tally with those shown in the collection statements received from the Comptroller. The Deputy Commissioners concerned should explain the differences exhibited against their respective Districts as early as possible. These differences should not exist under a system which provides for the Treasury Officers' certificates of credit to Deputy Commissioners' returns.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 23rd March 1893.

READ THE FOLLOWING :—

(1) Letter from the Officiating Under-Secretary to the Government of India, Revenue and Agricultural Department, No. 60—115, dated 22nd December 1892.

I am directed to forward copies of returns showing the state of tea and coffee cultivation in British India during the calendar years 1888 to 1891 inclusive. These statistics were formerly incorporated in the volume of "Statistical Tables relating to British India," annually published by the Government of India in the Department of Finance and Commerce. Their publication in that volume ceased in 1888, but the returns were continued as they contained information of considerable interest, and it was desirable that the series should be maintained unbroken pending a decision regarding their future preparation.

2 It has now been decided that they should be permanently retained and they will in future be published with the annual return of Agricultural Statistics compiled in the Revenue and Agricultural Department.

3. I am accordingly to request that the returns may be submittted to this Department by the 1st July annually, and that they may be prepared in the form enclosed. It will be observed that a column has been added to the existing form to show the total number of laborers employed on tea and coffee plantations in each District, and the Government of India hope it will be possible to furnish this information without much trouble.

4. It has been customary hitherto to submit with these returns a brief report in explanation of noticeable variations in the figures of the year under report compared with the previous year and supplying the information regarding the character of the season and crop, cost of cultivation and manufacture, trade and other points of interest connected with the condition and prospects of the tea and coffee industries. These reports the Government of India desire should be continued.

(2) Letter from 1st Assistant to the Resident to the Dewan of Mysore, No. 787—282-91, dated 7th March 1893.

In reply to your letter No. 11949—R. F. 37-92, dated the 14th January 1893, enquiring whether there would be any objection to the annual statement of coffee cultivation in Mysore being prepared for the revenue year ending the 30th June and submitted on the 1st November, I am directed to say that it will be more convenient if the return continues to be prepared for the period now prescribed. It is understood that the coffee season, from flowering to harvest, extends from March to October. If so, the statement could not well be made to relate to any other period than the calendar year.

2. As regards the time for sending in the return in question to the Government of India, I am to refer you to the accompanying copy of a *Circular from the Revenue and Agricultural Department, from which it will be seen that the 1st July has been fixed as the date for submission of this return.

*No. 60—115, dated 22nd December 1892.

No. 15856-63—R. F. 37-92, DATED, BANGALORE, 23RD MARCH 1893.

ORDER THEREON.—Communicated to the Deputy Commissioners of Districts with a request that the return of coffee cultivation may be prepared for the calendar year in the appended form and submitted so as to reach this Office not later than the 1st of May.

2. The return for the year 1892 should be submitted in the form hereby prescribed as early as possible.

3. Attention is requested to the instructions contained in para 4 of the Government of India's letter above printed.

No. 16246-55—R. F. 295-92, DATED, BANGALORE, 24TH MARCH 1893.

ORDER.—I. In explanation of the orders contained in Proceedings of Government No 2872-81—Circular 28, dated 19th May 1892, and in continuation of the Revised Rules for the treatment of excesses in Chattram, &c., Inams published with Government Notification No. 125, dated 10th June 1891, the Government are pleased to lay down the following additional Rules:—

1. Any excess, over the area allowed by the first settlement made under the Rules of 1874, to which an Inamdar may be entitled under a revised settlement (under the Notification of 10th June 1891), shall be made good to him out of (as far as possible) the area resumed under the first settlement, where such resumed area is at the disposal of the Government or is surrendered for the purpose by the occupants thereof. But the revised settlement should not be made the occasion for the exchange of fresh, for *available* old, lands, at the mere option of the Inamdar.

2. Where however the resumed land is not available or the portion of it available is not sufficient, the excess or balance of area required, shall be granted out of Government unoccupied land, in the same or neighbouring villages equal as far as possible, in character, quality and value to the resumed land. All such assignments of fresh land should be reported for the information and confirmation of Government.

and 3. Where an adjustment in either of the two ways above specified be found not feasible, the case should be reported for the orders of Government; with a recommendation for the grant of an equivalent in land out of the Inamdar's private holding, if any, in the same or neighbouring villages or for a ready money Inam from the Treasury or for such other disposal as may be considered most appropriate.

II. A Notification in the above terms will be published in the Mysore Government Gazette.

PART I

LOCAL BOARDS BRANCH—MUNICIPAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Municipal),—dated 1st March 1893.

READ :—

Letter from the Comptroller, dated 17th January 1893, No. 3492, submitting the Auditor's report on the accounts of the Kolar Municipality for the 15 months of the year 1891-92.

No. 14461-2—L. F. 234-92, DATED, BANGALORE, 1ST MARCH 1893.

ORDER THEREON.—The above report shows that the Registers have been very carelessly posted. The total demand for 1890-91 and 1891-92 according to the demand, collection and balance statement kept in the Taluk Cutcherry was Rs. 13,417—7—8, of which Rs. 9,957—6—3 was collected, leaving a balance of Rs. 3,460—1—5 to be collected in 1892-93; but in the detailed account prepared by the Shanbhog, the balance is shown to have been Rs. 3,654—14—8 or Rs. 194—13—3 more than the amount shown in the demand, collection and balance statement and a sum of Rs. 209—9—11 is deducted therefrom as having been realized in excess of sums due between the years 1887-88 and 1891-92. In some cases sums recovered were entered against persons other than the payers and in a few instances certain sums were recovered from persons though nothing was due from them. Again out of the collections made in December 1889, January and March 1890 on account of Mohatarfa a sum of Rs. 2—8—0 was not remitted to Treasury. The Auditor's report shows that a thorough examination of the accounts of the Shanbhog from the year 1886-87 was required, but that he had no time to do it. The report is forwarded to the Deputy Commissioner of the Kolar District and he is requested to have the accounts from 1886-87 thoroughly scrutinized and to submit a correct demand, collection and balance statement. He should also take notice of the conduct of the person or persons responsible for the irregularities noticed.

2. A separate register should be maintained showing the rents recovered from shops in the market instead of making the entries in the Mohatarfa register.

3. The Auditor brings to notice that in the following cases Budget limits were exceeded as shown under:—

	Provision in the Budget.	Amount spent.
	Rs.	Rs.
II. Head Office	108	165
IV. Conservancy	1,568	1,869
V. Police	1,964	1,998
IX. (*d*) Maternity	180	210
X. Miscellaneous	60	74

The circumstances under which the excess expenditure was incurred should be explained. If additional expenditure was needed for April, May and June 1892, a Supplemental Budget ought to have been submitted to Government before expenditure was actually incurred.

4. It is noticed that in some instances the signatures of Municipal Servants were not obtained in acquittance rolls. The attention of the disbursing officer should be drawn to this omission.

READ :—

Docket from the Deputy Commissioner of the Chitaldroog District, dated 6th December 1892, No. 320—294, submitting a report on the result of the audit of accounts of the Minor Municipalities of the District for the year 1891-92 together with a copy of the orders issued by him thereon.

No. 14488-9—L. F. 208-92, DATED, BANGALORE, 1ST MARCH 1893.

ORDER THEREON.—It is satisfactory to note that there were no grave irregularities in the accounts of these Municipalities and that the Deputy Commissioner has already issued instructions in view to remedy the minor irregularities noticed in the report.

2. The Deputy Commissioner should report the recovery of the sums remaining uncollected out of the contribution made towards the maintenance of the Town Police in the Municipalities of Davangere and Harihar.

3. As remarked by the Deputy Commissioner it is not advisable to entrust large sums to Peons, for purchase of articles required, at distant markets. If oil or other articles cannot be had in local markets, tenders should be invited for their supply.

4. The Deputy Commissioner is requested to state why Mohatarfa Registers are supplied in Holalkere alone at the cost of Municipal Funds and how many of such registers are actually purchased and their cost.

5. A monthly expenditure of Rs. 2—8—0 is incurred by the Municipality of Challakere for feeding a bullock maintained for conservancy purposes. The Deputy Commissioner is requested to state how many bullocks are owned by the Municipality and whether it would not be more economical to hire bullocks for conservancy purposes than to buy and maintain them at the cost of Municipal Funds.

Letter from the Comptroller, dated 11th January 1893, No. 3433, submitting the report of the Accountant deputed to audit the accounts of the Chitaldroog Municipality for the year 1891-92, ending 30th June 1892.

No. 15091-2—L. F. 234-92, DATED, BANGALORE, 14TH MARCH 1893.

ORDER THEREON.—It is reported that the instructions conveyed in Proceedings No. 6227-39—429, dated 24th August 1891, in regard to the payment of collections to the Treasury, were not observed in the case of the Mohatarfa. The attention of the Deputy Commissioner is drawn to this, and he is requested to enforce strict observance of orders issued and to submit an explanation for omission in the past.

2. Printed counterfoil receipt books should at once be supplied for use by the Pound-keepers

3. The Auditor reports that moneys collected under the head "Miscellaneous" were "not remitted to the Treasury directly from November 1891, and for the sums paid into the Treasury up to that month intimations have been received thereof, and noted in the Jamakharch account." The Deputy Commissioner is requested to state why the system of direct remittance to the Treasury was given up from November 1891, in the case of Miscellaneous Receipts, what amount was collected under that head since the beginning of the month and by whom and under what head it was remitted to the Treasury

4. An excess payment of Rs. 5—14—1 is stated to have been made under "Head Office." The circumstances under which the extra charge was incurred should be explained.

5. Undisbursed pay of the establishments is alleged to have been credited to "Deposits" with the amount of permanent advance on hand and payments made as occasions arose. This is irregular. The attention of the Deputy Commissioner is invited to Government Proceedings, dated 24th August 1891, No. 6227-39—429, and he is requested to see that such sums are in future adjusted by short drawals in the pay bills of the following months.

6. The Mohatarfa khate which is said to be incomplete should be written up early.

The following letter from the Deputy Commissioner of Bangalore, dated 22nd October 1892, No. 353 :—

In reference to the Proceedings of the Government No. 3926-7—L. F. 108, dated 9th September 1892, communicating the Senior Surgeon's letter on the insanitary condition of Closepet for my remarks and suggestions, I have the honor, while returning the enclosures to the above proceedings, to report as follows :—

2. On a similar representation by the Senior Surgeon in 1889, the Sanitary Engineer was deputed to report on the condition of the town. He submitted his report in December that year. His recommendations were—

(1). To provide a pure water-supply. He proposed to bury a number of perforated cost-iron pipes, filled with *polarite*, in the bed of the Arkavati, connect them to a central point and conduct the water in stoneware pipes to a well sunk in the east bank of the river, from which to lift the water by means of a pump worked by manual labor into a cistern with taps.

(2). To remove from the centre of population, the offensive trades of oil-boiling, potteries and stoves for hides.

(3). To improve domestic arrangements for breeding silk-worm.

(4). To close all privy wells.

(5). To provide efficient surface drainage.

(6). To prevent the occupation of houses in common with cattle.

(7). To remove ruined houses and walls.

(8). To prohibit the burial of the dead amidst the living.

(9). To divert the sewage from the river and utilise it on a farm.

(10). To provide stone drains for taking away sewage, and

(11). To remove promptly all excremental produce of the population.

3. The Government was pleased to sanction the alienation of the Government's share of Mohatarfa for 8 years from 1890-91 and an advance of Rs. 4,000 without interest and a further advance of Rs. 19,000 with interest at 4 per cent. *Vide* Government orders Nos. 7892-3—900 and 8704-5—604, dated 23rd September 1890 and 23rd October 1890, respectively.

4. In January 1891, the then Deputy Commissioner sent a copy of Mr. Lee's report to the Executive Engineer with a request "to prepare the required estimates." On receipt of the Government order referred to in the 1st paragraph of this letter, I first became aware of Mr. Lee's report and wrote to the Executive Engineer to find out what had been done by him. In reply he has promised to send his scheme by the 20th ultimo, through the Chief Engineer, but it has not arrived yet. I am writing again to remind him.

5. While writing to the Executive Engineer, I also wrote to the Sub-Divisonal Officer sending him a copy of Mr. Lee's report and asking him to visit Closepet and report his views. I enclose a copy of Mr. Raghunatha Rao's interesting report. I shall next proceed to consider Mr. Lee's proposals.

6. *Water-supply.*—Mr. Lee himself says that "the system proposed for abstracting filtered water direct from a river is at present an untried one." But he urges that "its success is fraught with such vital interest to towns situated similarly to Closepet on the banks of rivers, that a trial should no longer be delayed." On the score of expense, Mr. Raghunatha Rao condemns the above proposal and proposes the sinking of a few wells in suitable localities. The town has a population of about 6,000 and the existence of a number of fresh water wells in different localities makes it probable that fresh water is available in most parts of the town at a moderate depth, 30 to 40 feet. A well on the north-east of the Railway is reported to supply water for a hundred householders. The town has one thousand and four hundred houses. I believe about ten wells in different localities will provide an ample supply. This will cost about Rs. 2,000. I imagine Mr. Lee's proposal will cost several times as much and will further entail a continual cost of lifting.

7. In the above paragraph, I have tried to present the question in its different aspects. This small Municipality is, like its sister Municipalities, in a chronic state of poverty. It is not, I submit, fair to it, that it should be burdened with the cost of an experiment which may turn out a failure. But as pointed out by Mr. Lee the experiment is fraught with vital interest and, I think, that, in the cause of general sanitation, the Government ought to make the experiment at its own cost. In the meantime, if the Government agrees with me, I shall begin to provide a well supply. When a sufficient supply has been provided by some means or other, the use of the ordinary unfiltered river water for drinking should be prohibited.

8. *Objectionable Trades.*—There are only four potteries I do not think that potteries are very objectionable. I would leave them undisturbed. Cows and sheep are not now slaughtered and butchers' meat sold within the inhabited area. Mr. Raghunatha Rao does not speak of stones for hides. If they still exist in the town, I shall have them removed. As regards "Oil-boiling houses," if the trade is not very extensive, I do not think we need trouble ourselves much about them, as the harm resultant therefrom is not, in my opinion, so great as to justify our interference with the trade. It is to be remembered that the prohibition of the trade may cause the ruin of the families engaged in it.

9. *Silk Trade.*—Mr. Lee recognises the difficulty involved in any action in reference to the silk trade. He would therefore restrict the supervision of the breeding and reeling establishments to a daily removal of all debris by Municipal sweepers, which is exactly what Mr. Raghunatha Rao proposes; but the latter Officer considers the expense beyond the ordinary means of the Municipality. He reports that the traders are willing to contribute 4 annas per head; but considering the difficulty of collecting a voluntary contribution, he suggests that the present reel tax be raised from Rs. 4 to 7 a year. This increase would yield about Rs. 90, the present income being Rs. 116, while the extra expense Mr. Raghunatha Rao proposes is Rs. 210 a year. The trade is reported to be very lucrative and the necessity for the extra expense arises solely from unwillingness of the traders to allow the trade to be removed from within the town. Under these circumstances, the cost should, I think, fall on them wholly. But how this should be done, I am not just now in a position to propose. I shall do so, however, very shortly.

10. Mr. Lee proposes further that the Municipality should provide suitable buildings for reeling silk. This is, however, hardly practicable, as explained by Mr. Raghunatha Rao.

11. *Privy Wells.*—I would draw the attention of the Government to Mr Raghunatha Rao's remarks and suggestions which I fully endorse.

12. *Surface Drainage.*—Stone drains have been constructed; but they are reported to be on a higher level than the street, which therefore, in the opinion of Mr. Raghunatha Rao, require to be raised. I shall, however, await the Executive Engineer's proposals.

13. *Cattle.*—Mr. Lee's proposal is altogether impracticable. It is not attempted in large towns like Madras and Bangalore, much less can it be attempted in a place like Closepet where the prevailing conditions of life are rural and agricultural.

14. *Ruined Houses and Walls.*—I shall visit the place soon and adopt the best remedy They must of course be cleared up.

15 *Burial of the Dead.*—Apparently there is but one burial ground in the town, a new one formed by Roman Catholics. If the burials are few and far between, I would not interfere with it. Otherwise I shall order its closure.

16. *Sewage.*—Mr. Raghunatha Rao reports that there is very little of it. During my visit, I shall consider the question of a sewage farm.

17. The Government has already advanced Rs. 4,000, of which more than Rs. 2,500 have been repaid, Mr. Raghunatha Rao wants the balance to be remitted, which I am not prepared to recommend.

Brief report about the sanitation of Closepet Town, having regard to Mr. Lee's report on the improvements to be effected and to the practical side of the question.

2. There are about 1,400 houses with a population of, in round figures, 6,000, of whom 2,000 are Muhammadans. The situation of the town is gradually sloping towards the Arkavati on whose eastern bank it lies. It is divided into northern and southern blocks by the Bangalore and Mysore high road. The Taluk Cutcherry and the Railway Station are situated in the latter portion.

3. The chief source of insanitation as pointed out by Mr. Lee arises from silk trade, drinking the river water and from the defective system of sewage, &c. Consequently, the town is periodically visited by cholera, dysentery, fever, &c., of a lingering nature. This year, cholera prevailed from 31st July to 29th August. There were 100 attacks, resulting in 69 fatal cases, of which 35 were amongst Muhammadans.

4. The practicability of effecting improvements are considered in the following few lines.

5. The town derives its importance from silk trade, which is carried on, on an extensive scale, giving employment to almost the entire population, so much so, that there is scarcity of labor for any other kind of work. It is also a means of great profit for merchants.

6. There are 100 silk reels, which give work for 300 laborers at the rate of 3 men for each reeling instrument. The rearers of silk worms require Mulberry leaves every day. About 500 people of the town are employed in plucking leaves in the Mulberry gardens. A large number of laborers is also employed by the owners of Mulberry gardens in digging, planting, watering, weeding, &c.

7. From 1½ to 2 seers (weighing Rs. 23 each) of silk, valued at Rs. 5—8—0, is reeled up every day by each charki. The 100 reels in the town yield about 175 seers = 4 maunds and 15 seers, valued at Rs 550. Besides this, the silk produced in the surrounding villages finds market at Closepet. This quantity is not less than that produced in the town. Thus the daily average of silk trade in the town may be calculated at 8 maunds, valued at Rs. 1,200, taking into consideration bad and good seasons alike. The value of silk exported monthly is Rs. 36,000. At this rate the annual value, in round figures, is 5 lakhs of rupees.

8. There are about 10 or 12 merchants who buy silk every day and export it to Madras, Dharwar, Bellary, Coombakonam, Salem, Madura and other places.

9. The caterpillars, when they become ripe, sometimes escape from their webs. If so, the silk becomes wasted. This is exported to England as wastage at the rate of Rs. 10 a maund. In England, silk is taken out of this wastage.

10. Most of the reelers buy ripe cocoons at the rate of Rs. 10 a maund and to prevent the escape of the worms from the web, they heat the cocoons with steam, by placing them in a basket over a pot, containing boiling water. The cocoons are then removed to the reeling shed and boiled in an open kettle, and silk is reeled from the webs, while they are being boiled.

11. The heating of the cocoons with steam is done in homesteads by the members of the reelers' family. Silk is then reeled in an open shed, either thatched or tiled. The dimensions of the sheds depend on the number of reels at work in each.

12. I have been describing the above particulars of the trade to draw attention to the fact that the very subsistence of the town depends on it and the inadvisability of placing any restriction whatever on the plea of sanitary improvements.

13. The chief evil of the trade is from the accumulated wastage, *viz.*, the boiled worms and the water in which they are boiled. If these are not removed from the reeling sheds, they give out the most offensive stink in 3 hours, fouling the surrounding atmosphere.

14. In the interests of the trade it is not desirable to remove the reeling sheds beyond the limits of the town, as it will interfere with the economy of labour, debarring the Gosha females and children from work. Every bit of the cocoon is looked upon as property and is therefore properly watched now the existing reeling sheds being close to the reelers' dwelling houses. This cannot be done if the sheds are removed far away. The process requires a good quantity of water. The proposed sheds are therefore to be built close to the river and then the river water will become worse than it is now. Further a decent accommodation for 100 charkis cannot be built under Rs. 5,000.

15. The only possible way of removing the nuisance, *i. e.*, the heaps of the dead worms and the foul water, is by keeping a conservancy cart and a sweeper solely for this purpose. The wastage should be removed twice a day from every reeling shed. The present straitened state of the Municipality cannot afford to maintain the establishment. I convened a meeting of the reelers and the merchants in silk trade. They have stoutly opposed the measure of removing the reeling sheds from the town. They have consented to maintain a cart and a sweeper at the cost of Rs. 20 a month. They have executed a mutchilika promising to pay 4 annas a reel per month. But I do not think that this will last long It is difficult to collect every month 4 annas from every reeler. I should therefore propose increasing the reel tax from Rs. 4 to 7 per annum in this town. This can be done without much opposition, considering the profit they make.

16. Now I come to the subject of drinking water. Arkavati is in floods only for a very short period in the year and that too at different times during the rainy season. The flow is in its lowest ebb during the greater part of the year and therefore apt to be dirtied. It is an out-let for the sewage of the town. All kinds of washings, the rain water flowing from 4 grave yards in the town are emptied in it. There are Mulberry gardens on both sides of its bank and the gardens are well manured. The rain carries the manure into the river. Large quantity of excreta, which the inhabitants are accustomed to deposit on the banks, is also washed down into the river. The water is therefore condemned from every point of view. With all this, the inhabitants assert that they are accustomed to drink the river water and that they found it healthy.

17. To filter the river water by fixing perforated iron pipes filled with filtering substance, as suggested by Mr. Lee, is I suppose very costly and there is no guarantee of keeping the river water pure, lower down the filter. Another suggestion of introducing pipe water from Kottipur Tank, a mile from the town, is also not desirable, on account of great cost and insecurity of constant supply. The tank itself is very small, being quite dry for more than three months during the year. The bund and the kodi must be raised to have a large storage of water in the tank, provided that there is large catchment area.

18. In my opinion, the sinking of 4 or 5 drinking water wells in suitable places in the town at the cost of Rs. 200 each, is all that is needed, in case the inhabitants be pursuaded to use the well water for drinking purposes.

19. Drains and Streets, Privy Pits, &c.,—The sewage is not considerable in the town. The liquid portion being absorbed in the ground here and there. Although V shaped drains are built up in all the main streets, they are at present useless. The surface ground of the streets is 1 or 1½ feet lower than the drains. The fact is that no fresh earth has been put in the streets, perhaps per half a century. The rain water flows in streets cutting them here and there, instead of in the side drains. The streets must be raised and barrelled. The lanes also require gravelling. All this work will cost about Rs. 2,500 at least for the present.

20. Even in Bangalore it was found impracticable to introduce generally open surface privies instead of the privy pits in the back-yards of private houses. The nuisance on this score in this town is much less, as the men are used to go to the river sides to stool. It is only the women and children that go to the pits in back-yards. This evil cannot be removed unless the Municipality is prepared to entertain 6 scavengers and 2 carts for the removal of the night-soil at the cost of Rs. 75 a month, *i. e.*, nearly Rs. 1,000 per annum, for the scavengers are to be imported from Bangalore.

21. It is only possible to minimise the nuisance by building half a dozen public privies and entertaining 1 cart and 2 scavengers. The building of 6 privies may cost Rs. 600 The cart and the scavengers Rs. 30 a month.

22. The slaughter houses and butchers' stalls have been since removed to a large plain in the southern extremity of the town. There are only four mutton shops and 2 beef shops in the town. Three or four sheeps and a cow are killed daily. A small piece of ground for killing sheep and another for cows, should be walled round and 6 shops to be built at the cost of Rs. 300. Each stall may pay a rent of 4 annas a month.

23. The soil is peculiarly fitted for the growth of rank vegetation. Every vacant bit of ground, whether it is a back-yard, open ground, or a building site, is overgrown with rank vegetation. It is impossible to eradicate it.

24. The following is an extract from this year's Budget of the Municipality :—

Revenue.	Rs.	A.	P.

Total...	2,631	4	0

25. It will be seen from the above that no money, whatever, is available either for original works or repairs.

26. It appears that there is still a balance of Rs. 1,497—8—10 due to Government. I would recommend the remission of this balance in favor of the Municipality with a grant of Rs. 2,500 to enable the Municipality to commence the improvements at once. The Municipality will then save annually Rs. 1,330—10—0 (the amount which is now being paid to the Government in liquidation of the debt) which will be advantageously applied to the improvements recommended.

No. 15301-3—L. F. 108-92, DATED, BANGALORE, 20TH MARCH 1893.

ORDER THEREON.—Considering the sanitary requirements of Closepet and the urgency for immediate action, the Government are pleased to sanction from Provincial Funds a sum of Rs. 10,000 for the trial of the experiment of conducting the water of the Arkavati river to some convenient place near the village through perforated cast-iron pipes filled with polarite. The Sanitary Engineer is requested to make the necessary provision in his Budget for 1893-94, and commence the work as soon as possible, the estimates being previously forwarded for approval. He is

also requested to report without delay the probable annual cost of lifting the water into the cistern by means of a chain or other pump having no leather.

2. The Government are also pleased to remit the balance of the advance (Rs. 1,500) made to the Municipality referred to in the 17th para of the Deputy Commissioner's letter.

3. The Government agree with the Deputy Commissioner that nothing need be done at present with the potteries or oil-boiling houses within the town, but the storing of hides excepting in specified localities must be prohibited after due notice.

4. Arrangements should be made forthwith for the daily removal of all debris connected with silk trade. The establishment recommended by the Deputy Commissioner in his letter, dated 27th January 1893, No. 696, may be at once entertained by him on the salaries noted in the margin, if the work cannot be given out on contract as suggested by Government in their Proceedings, dated 18th February 1893, No. 64—L. F. 108-1892. To meet the cost, the Deputy Commissioner is authorised to raise the reel tax from Rs. 4 to 7 a year.

4 Sweepers on Rs. 3 per mensem.
1 Peon on Rs. 5 per mensem.

5. The Municipality need not undertake to provide any buildings for reeling silk.

6. The Government are of opinion that the use of privy pits in back-yards should be stopped as soon as possible. The Municipality is authorised to employ 2 carts and 6 scavengers to remove the night-soil at a cost not exceeding Rs. 50 per mensem.

7. The other points noticed by the Deputy Commissioner do not require immediate orders.

8. The Government observe that the annual income of the Municipality according to the Budget for 1892-93 is Rs. 2,717 and the annual expenses inclusive of the cost of the ordinary *Public Works, but exclusive of the sum provided for the repayment of Government loan (Rs. 1,334) which has no longer to be made, is Rs. 1,682. Thus, there is a balance of Rs 1,035 for the †improvements proposed in the preceding paragraphs. When water is brought near the town, an additional water tax will have to be imposed for the cost of lifting water. Meanwhile, the Deputy Commissioner is requested to revise the house tax and see how far the annual income may be improved. The sale of manure removed by scavengers is sure to add to the receipts.

LOCAL BOARDS BRANCH—LOCAL FUNDS.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Local Funds),—dated 20th March 1893.

READ:—

Letter from the Deputy Commissioner of the Tumkur District, dated 15th February 1893, No. 682, submitting a list of the drinking water wells sunk or repaired during 1891-92 out of the grant of Rs. 10,000 sanctioned from Local Funds General and stating that a similar list of works executed out of the grant of Rs. 15,000 made for 1892-93 will be submitted after the close of the year.

No. 15327-35—L. F. 250-92, DATED, BANGALORE, 20TH MARCH 1893.

ORDER THEREON.—The following table shows the expenditure of Rs. 10,000 incurred on the improvement of drinking water-supply during the year 1891-92 distributed over the several Taluks of the District:—

No.	Taluks.	Number of Works executed.	Expenditure incurred.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Local Funds),—dated 21st March 1893.

READ :—

I. Docket and letter from the Deputy Commissioners of Hassan and Bangalore Districts, dated 13th and 30th December 1892. Nos. 652 and 577 respectively, stating that the preparation of District Fund Accounts of September and subsequent months has been delayed owing to non-receipt of information from the Comptroller and the Examiner.

II. Letter from the Comptroller, dated 19th January 1893, No. 831, suggesting that in order to ensure agreement between his accounts and those of the Deputy Commissioners, the Deputy Commissioners be instructed either to submit their accounts through his office or to obtain a certificate from the Treasury Officer to the effect that the amounts therein shown on the side of receipts have been credited in the Treasury Account for the month and that they be advised not to enter on the side of expenditure sums which have not been disbursed by them or intimated either by the Comptroller or Examiner of Public Works Accounts.

III. Letter, dated 3rd January and 7th February 1893, Nos. 4 and 397 from the Examiner of Public Works Accounts, explaining the cause of delay in submitting statements of admitted charges and stating that they cannot be furnished until the 20th of the 2nd month following that to which they relate.

IV. Letter from the Chief Engineer, dated 10th February 1893, No. 546, forwarding Examiner's letter, dated 8th idem, No. 404, stating that Executive Engineers could furnish the respective Deputy Commissioners with an abstract statement of District Funds outlay by the 20th of the following month.

No. 15436-55—L. F. 287-92, DATED, BANGALORE, 21ST MARCH 1893.

ORDER THEREON.—The Executive Engineers of the several Divisions will be directed to furnish monthly so as to reach the offices of the Deputy Commissioners on or before the 20th of every month an abstract statement of expenditure incurred by them out of District Funds in the month preceding. From the figures given in these statements and from the information available in the Deputy Commissioner's office under receipts as well as expenditure under "Civil Charges" and "Public Works executed by Revenue Officers," the District Fund monthly accounts should be compiled in the Deputy Commissioner's Office and submitted to this Office within the prescribed time, *viz.*, by the 25th of the following month. If the accounts require modification with reference to the statements received subsequently from the Comptroller and the Examiner of Public Works Accounts, the same should be reported to this Office in view to corrections being made in the accounts already furnished.

2. The accounts should continue to be submitted direct to Government as hitherto, but as suggested by the Comptroller, the Deputy Commissioner should obtain in each month's account a certificate from the Treasury Officer to the effect that the receipts therein entered correspond with the sums credited to the Treasury accounts, and they should not enter on the side of expenditure any sums that have not been disbursed by themselves or intimated either by the Comptroller or the Examiner of Public Works Accounts.

3. The above instructions will, it is hoped, remove some of the main causes of disagreement in the two sets of accounts.

4. The Comptroller is requested to expedite the submission of the draft rules called for in Para 3 of Government Proceedings, dated 3rd February 1893.

The following letter, dated 3rd March 1893, No. 4227, from the Senior Surgeon.

In reply to your No. 1416—L. F. 4-92 of the 23rd ultimo, I have the honor to state, that I can spare a female Hospital Assistant for the proposed Dispensary for women and children at Chikmagalur and in my opinion having regard to the extent of the population of the town it would be well to establish a Dispensary of the kind there, as, even though the General Hospital is doing good work, there must be a large number of Hindu females whose social position or caste make them unwilling to attend the General Hospital as out-patients either on their own behalf or that of their children and this applies with greater force to Muhammadan gosha females who are practically unable to go there and the result most probably is that both these classes get very inefficiently treated when ill.

2. I am of opinion that the establishment of a Dispensary exclusively for women and children in charge of a Female Doctor, here and there in the large centres of population throughout the State would be very beneficial. Morally as well as physically, to the people, and I regret that the Municipality of the Town of Shimoga decided against one, and so left the classes referred to in the proceeding para practically unprovided for in this way, as there, as at Chikmagalur, the present hospital answers the general wants of the male population as well perhaps as those of the females of the lower classes, but there are these other portions of the community which they do not reach and which I think it is very desirable they should.

No. 15600-10—L. F. 4-92, DATED, BANGALORE, 22ND MARCH 1893.

ORDER THEREON.—Government are pleased to sanction the establishment of a Dispensary for women and children in the Town of Chikmagalur as recommended by the Municipal Board and the Senior Surgeon.

2. The cost of menial establishments, contingencies, charge allowance and furniture required as shown in the margin will be met from Municipal Funds of the Town of Chikmagalur and District Funds of the Kadur District in proportions of one-third and two-thirds respectively, the pay of Female Hospital Assistant, Europe medicines, &c., being debited as usual to the Provincial Funds.

FROM

J. P. HEWETT, Esq., C. I. E.,

Deputy Secretary to the Government of India.

To

A CASE having occurred in which payment of pension was made to a military pensioner for the period of his imprisonment under the orders of a criminal court owing, apparently, to the omission of the convicting Magistrate to follow the instructions laid down in Home Department Circular No. 16—1132-1141, dated the 8th July 1887, I am directed to request that the attention of District officers in may again be drawn to the orders contained in that Circular. The Governor General in Council is however pleased to direct, in partial modification of that Circular, that the report required when a military pensioner is convicted of an offence by a criminal court should in future be made direct to the Controller of Military Accounts of the circle within which the conviction takes place.

No. 14731-2—G. 3445, DATED, BANGALORE, 5TH MARCH 1893.

ORDER.—On the evening of the 20th February 1893, it casually came to the notice of the Government, that the local authorities at Seringapatam had recently prohibited bathing at the Ghats in the Cauvery River at that place and Ganjam. This extraordinary prohibition was, at once, ordered to be removed and was actually removed by the next morning. It only remains now to place on record the grave disapproval of the Government of the thoughtless action of the local officers.

The facts of the case are as follows:—

2. About the middle of January last, a number of inhabitants of Seringapatam and Ganjam petitioned the Deputy Commissioner of Mysore, bringing to notice the insanitary condition of those towns and praying that steps be taken to prevent epidemics breaking out. The petition was forwarded by the Deputy Commissioner to Mr. Standish Lee, Sanitary Engineer with the Government, and the latter Officer inspected the town of Ganjam on the 13th February. After the inspection, Mr. Lee addressed a letter (No. A, dated 14th February) to the Deputy Commissioner stating, that the sanitation of the place was unsatisfactory and suggesting, as preventive measures to be immediately undertaken, that the current in the middle of the river should be diverted so as to bring the south bank along the entire length of the town, so that the people might not take standing water for drinking purposes; that the banding up of water to catch fish and the disturbing of the pools on the town side of the river, should be strictly prevented; and that "the washing of cloths and bathing at the Ghats should be stopped." He also pointed out, that it would be no hardship to make the fishermen and others restrict their operations to the north bank of the river, which is opposite the town. Mr. Lee further recommended a thorough cleaning up of the whole town and the removal of the manure collected in pits, and he advised immediate action being taken as cholera generally prevailed in Ganjam in the month of February.

3. Copy of this communication was forwarded by the Deputy Commissioner to the Sub-Division Officer of French Rocks "for early attention."

4. In carrying out the suggestions of the Sanitary Engineer, a notice was, under the orders of the Sub-Division Officer, issued on the 17th February 1893 by the Amildar, as Vice-President of the Seringapatam Municipality, to the inhabitants of Seringapatam and Ganjam to the effect that "the pollution of the waters of the branch of the Cauvery River flowing to the north of the towns of Seringapatam and Ganjam by disturbing stagnant pools, by bunding up water for catching fish, by washing cloths or bathing at the Ghats, is prohibited from this date, and that for the above purposes the southern branch of the river or the northern bank (of the northern branch) may be used."

5. It is to be regretted that the suggestion in Mr. Lee's letter regarding the prohibition of "bathing at the Ghats" was very vaguely worded in that it did not specify whether he referred to particular Ghats from which drinking water was taken, or to all Ghats at Ganjam alone or at both Seringapatam and Ganjam. Taking Mr. Lee's letter as a whole at any rate presuming that an Officer of his experience of the manners and customs of the country could not have proposed the wholesale prohibition of bathing and washing at all the Ghats in Seringapatam and Ganjam, it is reasonable to conclude that the prohibition of bathing was only one of the several measures recommended by him for the better sanitation of Ganjam, and that he referred only to the Ghats from which drinking water was taken. Even supposing that the Sanitary Engineer had meant otherwise, it was the duty of the Sub-Division Officer to have considered the suggestion in all its bearings and its effect upon the convenience and the established rights and privileges of the public before ordering the absolute and wholesale prohibition of bathing at all the Ghats both at Seringapatam and Ganjam. A measure which he must have known would be distasteful to the feelings of the whole community. Many measures of acknowledged public utility have often to be withheld in deference to the feelings and prejudices of the people and because established private rights must not be interfered with, and it is strange that the probable consequences of the measure, now in question, did not occur to the mind of an Officer of Mr. Muhammad Ali's standing and experience before he promulgated his thoughtless and indiscreet order.

6. The Deputy Commissioner too does not appear to have given to the matter the consideration which the importance of the interests involved demanded, and contented himself with merely forwarding Mr. Lee's letter to the Sub-Division Officer "for early attention." He explains, however, that as the Sub-Division Officer was in immediate charge of the towns of Seringapatam and Ganjam, and was likewise the President of those Municipalities, he did not feel called upon to take direct action in the matter. No doubt a cursory perusal of Mr. Lee's letter could not have led him to suspect that there was in it any suggestion which could lead the local Officers to act in a way amounting to an invasion of established, prescriptive rights and privileges or inflicting upon the people grave inconvenience and hardship. Under such circumstances the Government are of opinion that the real responsibility for the grave improper prohibition of bathing at all the Ghats is upon Mr. Muhammad Ali, Sub-Division Officer at French Rocks, and they cannot refrain from expressing their displeasure at that Officer's thoughtless and illadvised action.

READ :—

The following letter from the 1st Assistant to the Resident in Mysore, to the Dewan of Mysore, No. 711—16, dated, Bangalore, 28th February 1893.

I am directed to refer you to your letter No. 12643—G. F. 193-92, dated the 23rd January 1893, forwarding a report on the condition of the principal stations of the Great Trigonometrical Survey situated in the Mysore State for the year 1892.

2. The report was communicated to the Deputy Surveyor General in charge, Trigonometrical Surveys, Dehra Dun, who has now stated that it is complete and satisfactory.

3. The estimates for repairs called for by the Darbar, if exceeding Rs. 4 for each station should be submitted for sanction previous to the work being executed, otherwise they may be dealt with according to Article 417 of the Civil Account Code, Volume I, 5th Edition, the repairs should be restricted to the usual protective measures, at a cost not exceeding Rs. 4.

No. 14761-8—G. F. 193-92, DATED, BANGALORE, 6TH MARCH 1893.

Copy of the above is forwarded to the Deputy Commissioners of Districts for information and guidance.

No. 15322—G. 3658, DATED, BANGALORE, 18TH MARCH 1893.

ORDER.—In the appended Gradation List of Assistant Commissioners and Probationary Assistant Commissioners as they now stand, are entered the Departmental tests, if any, which individual Officers have yet to pass, so as to qualify themselves for retention or promotion in this branch of the public service.

2. In Proceedings Camp No. 523-49, dated 1st November 1891, definite orders were passed directing certain Officers then borne on the list to qualify themselves by passing specified tests; since then, certain other Officers were appointed some of whom had, under the rules of the service, to pass the prescribed tests. Thus, of the 41 Officers now borne on Schedule A, there were, in December 1891, 28 who had to pass one or more Departmental tests. Of these 28 officers, two (Mr. C. V. Raghavacharlu and Mr. K. Doraswami Iyer) have passed the Criminal test, and four (Mr. Subrayer, Mr. Knight, Mr. Paramasiva Iyer and Mr. Plumer) have passed the Revenue test. The other 22 have, the Government regret to observe, taken no steps whatever to qualify themselves for the service to which they belong. In regard to 10 of them marked thus * in the appended list, it may perhaps be said that they have an option in the matter under the terms of the orders contained in the following extract from the Proceedings of Government, Camp No. 450-60, dated 1st November 1891.

"The names of the above mentioned 11 * Superintendents and Assistant Superintendents of Police will de retained on the Assistant Commissioners' list, notwithstanding their appointment as above, in order to draw attention to the fact that they are avaliable in the future for appointments higher than those of Assistant Commissioners in the General service, but till so promoted, they must look to their own Department for advancement. If the Officers in question qualify themselves by passing the examinations prescribed for Assistant Commissioners under the rules in force for the time

* Of these 11, Mr. Knight has since qualified himself by passing the Revenue Examination, thus leaving 10 unqualified.

being, their relative position in the Assistant Commissioners' list will be maintained, but the names of such as fail to qualify themselves within the next three years wil be removed from the list of Assistant Commissioners without further notice, and they will not be eligible for promotion to the higher appointments of the General service."

3. Among the Officers to whom the above orders apply, there are some who are likely to make efficient Executive Officers in the General service, and it is the desire to make them available hereafter for promotion into such service that led to their being allowed 3 years for passing the prescribed examinations. More than one year has already elapsed without any result; but before November 1894 they would yet have two opportunities for completing the tests necessary for their eventual promotion into the General service. The Government trust that they will, in their own interests, avail themselves fully of these opportunities.

4. Under para 8 of Notification No. 9699 –G. F. 349-92, dated 11th December 1392, the following Officers are hereby exempted from passing the Civil Examination :—

Mr. M. S. Narain Rao,
„ V. N. Gopalaiengar,
„ Mir Kamaluddin Ali Khan,
and „ Syed Amir Hasan.

Mr. B. Ramaswamaiengar has already been exempted by special order of Government.

5. Thus, there are at present 23 Officers of Schedule A and 4 Officers of Schedule B—Total 27—who have to pass the examinations specified opposite their names in column 6 of the appended statement. They will now be called upon to report before the 15th proximo whether they propose to appear for these examinations in August next.

6. In the case of the 10 Officers marked* in the appended list, the views of the Government have already been stated; in the case of the other 15, separate orders will be issued upon receipt of their replies.

7. Regarding any of the 23 Officers of Schedule A who may be entitled to exemption under any of the Clauses of para 7 of Notification No. 9699—G. F. 349-92, dated 11th December 1892, the Government are willing to consider their claims to such exemption if the same be submitted before the 15th proximo, with a brief statement of the facts on which each claim is based and with authenticated extracts from Gazette Notifications or other documents in proof of the facts relied upon.

DEWAN'S MEMORANDUM.

Dated 22nd March 1893.

The preservation of Asoka Inscriptions recently discovered in the Molakalmuru Taluk.

Mr. Rice's letter B, dated 1st February 1893, pointing out the unsuitability of the rough wall built by the local Revenue officials.

The Chief Engineer's letter No. 7, dated 6th February 1893, forwarding the plans and report prepared by the Executive Engineer, Chitaldroog.

I fully concur with Mr. Rice in his opinion of the work recently done by the Revenue officials, and a copy of his letter will accordingly be forwarded for information to the Deputy Commissioner of Chitaldroog.

Mr. Rice's proposal as to the nature of the work required has the general approval o overnment, and a copy of his letter will accordingly be also forwarded to the Chief Engineer r the very early prosecution of the required works.

The plan s, when ready, should be forwarded to Mr. Rice for his concurrence and counter gnature, and should afterwards be forwarded to me.

The inscriptions are of very rare importance and will attract to the spot many persons in erested in Archæology. The works proposed for their preservation should be efficient and vorthy of the State in every way. It is needless for me, at present, to criticize, in detail, the roposals submitted by the Executive Engineer. They seem insufficient in several particulars.

Till the required works are completed, a watchman on Rs. 5 or 6 a month should be em ployed by the Deputy Commissioner to guard the inscriptions from acts calculated to injure them. After the enclosures are built and secured with locks and keys, no separate watchman would e required as the keys can be entrusted to the local Patel.

No. 15651-2—G. F. 113-92, DATED, BANGALORE, 23RD MARCH 1893.

ORDER.—Copies of the above Memorandum and of the letters therein alluded to are forwarded to the Chief Engineer in Mysore and the Deputy Commissioner, Chitaldroog District, for information and needful action.

T. ANANDA ROW,
Chief Secretary.

To—The Chief Engineer in Mysore returning the estimates and plans submitted by him.
The Deputy Commissioner, Chitaldroog District.
The Comptroller to the Government of Mysore.
The Director of Archæological Researches in Mysore.

PART I

MUZARAYI.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Muzarayi),—dated 15th March 1893.

MEMORANDUM.

No. 564-73—Muz. F. 20-92, dated, Bangalore, 15th March 1893.

Several irregularities and mistakes are noticed in the Muzarayi Budget Estimates for the year 1892-93 which have been submitted by the Deputy Commissioners. A few of such mistakes are pointed out below:—

1. The names of the several Institutions have not been entered under their proper heads.
2. The figures given in the Talukwar statements under the head "Government Cash Allowance" do not tally with those in the final Register of Ready Money Inams.
3. A few of the Institutions under Muzarayi management have been omitted.
4. Certain items of Receipt and Expenditure have not been entered under their proper heads.
5. Estimates for repairs and other items of expenditure not yet sanctioned by Government have been entered in the Budget.
6. Totals of several columns are not accurate.

II. Revised printed forms are herewith forwarded for the submission of estimates for the ensuing year, *viz.*, 1893-94, and the Deputy Commissioners are requested to observe the following instructions in their preparation:—

(i) In filling up Forms A and B, the several Institutions under the Muzarayi management should be divided as directed below into 4 classes, *viz.*, Chattrams, Temples, Matts and Muhammadan Institutions and their names entered in order under their proper heads, giving totals under each class.

(ii) All places of Hindu worship including Aswatthakatte, Nagarkatte, Brindavana, &c., will be shown under the class "Temples." But the Brindavanas in which feeding is conducted should be brought under class "Chattrams."

(iii) Masjids, Makans, Dargas and all other Muhammadan Institutions should be included in the class "Muhammadan Institutions."

(iv) Statements of Muzarayi allowances, such as, Muzarayi Stipends, Kodagi, Inam payments, Gogras, Sandalwood allowance, should be submitted in the forms separately supplied for the purpose.

(v) If in the case of any Institution the sandalwood allowance also has been included in the Tasdik amount, such allowance should be deducted from the Tasdik and the same to be entered in form "C."

(vi) As regards the amounts or allowances entered under the head "Miscellaneous" in the Statement A, it should be clearly explained in the column of Remarks, for what purpose such allowances have been granted, citing the Government authority for the same.

(vii) Only such estimates for repairs as have been previously sanctioned by Government should be entered in the Budget and the dates of sanction referred to in the column of Remarks.

(viii) No Muzarayi establishment should be entertained or the existing ones increased without the previous sanction of Government

(ix) Two copies of the Budget Statements will be prepared in the Taluk Offices and submitted to the Deputy Commissioner of the District who, after checking them will forward one set to this Office, retaining the other in his own Office for reference. No separate Abstract of the Talukwar statements need be prepared in the District Office.

(x) The Budget should be submitted so as to reach the Government on or before the 1st May next.

A. SREENIVASACHARLU,
Secretary.

To—The Deputy Commissioners of Districts.
The Palace Controller, Mysore.
The Comptroller to the Government of Mysore.
